David –

Based on a quick run through, the only thing I noticed is on page 177. The reference to Birch Bay should cite Aquatic Lands Outfall Easement No. 51-082214, rather than the preceding lease. The easement became effective on January 13, 2009.

David –

The only additional comment we have is that the entry regarding the Birch Bay outfall on page 25 should be updated to indicate that a new 30 easement was implemented in January 2009.

Roger
